## HOBBIES AND INTERESTS

---

### Interests

I am deeply passionate about the transformative potential of web3 and cryptocurrencies. I have dedicated personal time to exploring blockchain technology, engaging in online courses, workshops. This interest not only fuels my continuous learning but also provides a unique perspective on the intersection of technology and finance.

I was a federated football player for 12 years, with spells CS Marítimo and CF União clubs in my city.

I watch football every day and I love football and it's by far my favorite hobby.
